Are you paying the weed tax?

Weeds steal your crops; they rob you of your very land. Weeds impose a heavy tax on your profits—and very often turn your rightful profit into a dead loss.

You CAN evade this weed tax. But just fighting weeds won't do the work. You will have to stop PLANTING weeds—both you and your neighbors.

Every time you plant seed that hasn't been thoroughly cleaned by elaborate machinery, you plant weeds.

And every time your neighbor plants and grows weeds he is hurting your crops almost as much as his own.

Be safe! Don't depend on home-grown seeds (no matter how fine the crop). But plant only seeds which are accurately cleaned of weeds, pests, and foreign matter, and which are

Guaranteed Laboratory Tested

This means Keystone Seeds. And when you plant Keystone Seeds you can be sure you are planting seeds of certified origin, true

to strain, clean and free of weed seeds, and tested for germination!

Then you can look for crops as big as soil and weather can possibly produce. You'll be surprised to find that the cost of Keystone Seeds will only be a few cents an acre more.
